

Since June 1, 2007, Regulation (EC) No 1907/2006 concerning Registration, Evaluation, Authorization and Restriction of Chemicals¹ ("REACH" for short) has been in force.

REACH contains:

1. Since June 1, 2008, manufacturers or importers of substances as such, substances in mixtures or substances in articles which are released intentionally must register these substances at the European Chemicals Agency (ECHA) if the substances are manufactured or imported into the European Community in quantities of at least 1 t per year and if they are not exempted from registration obligations.
2. Suppliers of substances and mixtures must provide the recipient with either a safety data sheet (Article 31) or safety information (Article 32). In certain cases, the safety data sheet has to be amended with relevant exposure scenarios ("Extended Safety Data Sheet").
3. Suppliers, manufacturers and importers of articles that contain a substance on the "Candidate List of substances of very high concern for Authorisation" (Candidate List) in a concentration higher than 0.1 mass percent per article shall provide the professional recipient and on request a consumer of the article with sufficient information to ensure safe use of the article. This information has to include, as a minimum requirement, the name of that substance. Furthermore, if the substance on the Candidate List exceeds the quantity of 1 t per year in these articles, a notification to ECHA is required.
4. Since June 1, 2008, users of chemicals (substances and mixtures) – so-called "downstream users" – will have to comply with further obligations, but only after they have received an extended safety data sheet. Downstream users can provide appropriate information to assist the manufacturers and importers of substances and mixtures in registering them.

¹ REGULATION (EC) NO. 1907/2006 OF THE EUROPEAN PARLIAMENT AND OF THE COUNCIL of 18 December 2006 concerning the Registration, Evaluation, Authorisation and Restriction of Chemicals (REACH), establishing a European Chemicals Agency, amending Directive 1999/45/EC and repealing Council Regulation (EEC) No. 793/93 and Commission Regulation (EC) No. 1488/94 as well as Council Directive 76/769/EEC and Commission Directives 91/155/EEC, 93/67/EEC, 93/105/EC and 2000/21/EC

Important notice

Products are sold or provided and delivered by Infineon Technologies AG and its affiliates ("Infineon") subject to the terms and conditions of the frame supply contract or other written agreement(s) executed by a customer and Infineon or, in the absence of the foregoing, the applicable Sales Conditions of Infineon. General terms and conditions of a customer or deviations from applicable Sales Conditions of Infineon shall only be binding for Infineon if and to the extent Infineon has given its express written consent.

To the fullest extent permissible pursuant to applicable law, with respect to any information given in this document or in any associated documentation, Infineon disclaims all warranties and liabilities of any kind, whether express or implied, including but not limited to any warranties of merchantability, suitability of the products for the intended application or the specific use, or non-infringement of third-party rights.

Subject to the development and release of the products for series supply by Infineon, the technical specifications of the products are set forth in the relevant final datasheet provided by Infineon and, if any, agreed and signed specifications. Infineon's customers are required to evaluate the suitability of the products for the intended application or specific use.

The information given in this document is subject to change by Infineon at any time without notice.

What does this mean for Infineon's products:

Infineon Technologies AG manufactures only semiconductor products, which are articles according to REACH. As semiconductors are not intended to release any substance under normal and reasonably foreseeable conditions of use, the obligations in No. 1 and 2 above are not relevant for Infineon's products.

Regarding No. 3, the Candidate List was published on October 28, 2008, last amended on November 5, 2025, and currently contains 251 entries.

To the best of its knowledge and belief, Infineon determined that:

Some of our products contain lead (Pb) [CAS # 7439-92-1; EC # 231-100-4] in a concentration above 0.1 % w/w. You will find more detailed information in the Material Content Data Sheet (MCDS). If this information is not available, please contact your customer sales interface.

The products with the packages listed below can contain the following substance in a concentration above 0.1 % w/w: 1,6,7,8,9,14,15,16,17,17,18,18-Dodecachloropentacyclo[12.2.1.16,9.02,13.05,10]octadeca-7,15-diene ("Dechlorane Plus"™) [CAS # 135821-03-3, 135821-74-8, 13560-89-9; EC # 236-948-9].

| PG-TO220-3-906 | PG-TO263-3-901 | PG-TO273-3-900 | P-TO263-5-901 |
| PG-TO247-3-53 | PG-TO247-3-54 | | |

The packing of dry packed products encloses a Humidity Indicator Card (HIC) containing the following substance in a concentration above 0.1 % w/w: Cobalt dichloride (CoCl₂) [CAS # 7646-79-9; EC # 231-589-4].

The dicing film of bare die products contains the following substance in a concentration above 0.1 % w/w: Bis(2-ethylhexyl) phthalate (DEHP) [CAS # 117-81-7; EC # 204-211-0].

According to Article 7(3) REACH, notification is not required since exposure to humans or the environment under normal or reasonably foreseeable conditions of use including disposal can be excluded for Infineon's semiconductor products.

Furthermore, to the best of our knowledge, Infineon's semiconductor products do not contain any substances that exceed the threshold values for the applications listed in Annex XVII REACH.
